MRS TECHNICAL INFORMATION

General Description

Carbo Tech Modular Refrigeration Systems consist of a Copeland semi-hermetic condensing unit mounted in a cabinet. The units are pre-piped to the outside of the cabinet and pre-wired for automatic operation.

Specifications

- 1. Copeland semi-hermetic condensing unit.*
- 2. R-404A environmentally safe refrigerant.*
- 3. Aluminum angle framework covered with prepainted white aluminum cover.*
- 4. Cutler Hammer electrical control panel with fused disconnect. NEMA 3R rating.*
- 5. Allen Bradley pressure switch and all other controls necessary for automatic operation.*
- 6. Includes suction filter, catch all, sight glass, vibration eliminator and solenoid.*

Capacities

<i>Model</i>	<i>Based on -15 Degrees F Evaporator and 90 Degrees F Ambient</i>
<i>CT-MRS-1.5</i>	<i>7,970 BTU's per hour</i>
<i>CT-MRS-2</i>	<i>12,000 BTU's per hour</i>
<i>CT-MRS-3</i>	<i>17,270 BTU's per hour</i>
<i>CT-MRS-4</i>	<i>29,900 BTU's per hour</i>
<i>CT-MRS-5.5</i>	<i>42,300 BTU's per hour</i>
